

Federal Gift Rules Assistant Mobile Application

Wiley's [Election Law & Government Ethics Practice](#) has developed a first-of-its-kind interactive app on the gift rules that apply to federal government officials.

The *Federal Gift Rules Assistant* app, publicly available in the iTunes App Store and on Google Play, is an ideal resource for:

- Federal lobbyists;
- Organizations that employ or retain federal lobbyists; and
- Others who must comply with congressional and Executive branch gift rules, limitations, and exceptions.

The app serves as a pocket guide to the rules and features an interactive assessment to test users' knowledge. In addition, information regarding a variety of related products offered by Wiley is accessible in the app's Resource Center, including:
