 theinzman@wiley.law

Tracy has been representing clients for more than twenty years in a broad range of environmental, health, and safety matters. She is nationally recognized for her strategic representation of businesses that manufacture and market chemicals, pesticides, biocides, and other highly regulated products. Tracy is a member of the firm's Management Committee.

Representative Matters

- Develops strategies for evaluating and defending “embattled” products, including strategies for managing regulatory, public policy, communications, and litigation risks.
- Counsels clients on sophisticated environmental/regulatory requirements affecting all aspects of chemical development, production, and use.
- Counsels clients on the regulatory aspects of acquisitions, mergers and other transactions including the transfer of regulatory licenses, product registrations, permits and intellectual property rights involving pesticides and other highly regulated products. Provides strategic advice to minimize transaction costs and avoid business interruptions.
- Advises clients in the specialty chemical and pesticide sector on various agreements relating to sourcing, supply, toll manufacturing, distribution, sale, and other supply chain services.
- Represents clients before regulatory authorities to facilitate product approvals and defend against product restrictions and other adverse regulatory decisions.

Practice Areas
